IIBA ,Canada

Design Tools I know

Happy to Introduce Myself

- Around **12 years** of experience in the field of UX with strong hands-on expertise primarily in **Information Architecture, Interaction Design, Visual Design, and Usability Testing**, and secondary experience in User Research & Analysis
- Expertise in implementing **User-Centered and Conceptual Design**
- **Passionate about learning** and keeping the stakeholders informed about UI/UX trends and emerging technologies
- **Led design team** and acted as a **liaison** between stakeholders and design team
- **Strategizing & architecting** user interfaces with a rich experience for customers in the US, MENA, Europe, and APAC regions
- Handled various **Presales Engagement (POC and RFP)** and won deals by providing top-notch approach showcasing UX capabilities

Hats I Wear

As a Team Member

- Worked closely with **cross functional teams** in different geographies & accountable for the top-notch experience
- Acted as the **central point** of the design team to oversee and approve all deliverables delivered by design vendors
- **Mentored and Managed a team** of junior designers by providing design reviews, case study walkthrough
- **Facilitated and lectured** Design Sessions on various topics

As an Interaction /Visual designer

- Determine the **hierarchy of information** , Illustrate **ideas** using storyboards, prototypes and manage design systems
- Make sure that inclusive design follows the **branding ,government and accessibility guidelines**

As a Secondary User Researcher & Analyst

- **Elicited requirements/needs/pain points** from stakeholders/end users and **analyzed** requirements
- **Benchmarked** competitors' products for additional insights and best practices
- Responsible for **Process optimization** and provide business solutions for complex scenarios, business needs, and problems.
- In charge of evaluating a **product by testing** it on groups of users to check its functionality, usability, and ease of use.

Awesome Clients Worked with ...
